WETorDRY?

The new Texaco is a "dry gas." Petroleum engineers have been trying for years to perfect a motor gasoline which would vaporize to a dry gas under engine conditions and overcome the bad effects of a wet mixture. The new Texaco forms a dry gas at a temperature much lower than others on the market.

A wet gas, asitwould appear in the engine manifold, is a mixture of gasoline vapor and fine drops of liquid gasoline. It is the cause of unequal cylinder distribution and excessive crankcase dilution, and the result of high "endpoint" and low volatility. A wet gas chokes power. Liquid drops separate from the mixture at every bend of the manifold, and following the straightest path, concentrate at the end cylinders. That is why the spark plugs of the end cylinders are fouled more frequently than the others.

A dry gas, no matter how greatly magnified, is absolutely invisible—a perfect mixture of vapor and air. Drygas conserves power. It equalizes cylinder distribution and reduces crankcase dilution to a minimum, and is the result of low end point and high volatility.

The new and better Texaco, with its new low boiling point and low end point, its higher volatility and balanced distillation range, now provides an entirely new motor fuel—a dry gas of unequalled qualities.

The result is a far better manifold distribution, which permits a leaner carburetor setting, and means no flooded cylinders, less crankcase dilution, easier starting, maximum acceleration and more mileage.

Start today with a stop at the pump displaying the Texaco Red Star and Green T. You don't have to ask for the new Texaco—it's there at the regular place from the regular pump. And there, too, you can get the clean, clear, golden Texaco Motor Oil, famed for its lubricating value and freedom from carbon formation.

SMALL ANNOUNCES

Governor Also Fires Five Subordinates at Joliet Prison-Silent as to Will Colvin.

SPRINGFIELD, Ill., May 28 .-Gov. Small has removed John L Whitman, warden of Jollet Penitentiary, and has appointed in his place Elmer J. Green, State Superintendent of Prisons.

The Governor also announced yesterday that the subordinates at Joliet prison recommended for discharge by the Will County grand jury, Capt. Charl-son, Capt. Kelly, Clerk Jones, Capt. Bigford Capt. Hammer. Capt. Bigford, Capt. Hammer-meister and Farmer Reichert, would cease their connection with

the penitentiary at once.
Gov. Small said nothing about the removal of Will Colvin, State Superintendent of Pardons and Paroles, whose discharge the grand jury recommended.

Neither did he mention Chauncey Jenkins, director of the De-partment of Public Welfare, whose dismissal was urged by Oscar Carlstrom, Attorney-General.

Warden Green has been Superintendent of Prisons for nearly four years, having succeeded Whitman, when he became warden of Joliet. He had served three terms as Sheriff of Lake County and for the last year and a half has been acting warden of the Southern Illinois Penitentiary at

In his announcement of the changes, Gov. Small said of Green: "His general management of that institution (Chester prison) has been above reproach. During that period, out of a population of approximately 1600, he has had but five escapes, four of which were recaptured. In addition to the return of the four convicts who escaped during his term, he has succeeded in recapturing several other convicts who escaped prior to the time he took charge."

By the Associated Press.

CHICAGO, May 28.—John L. Whitman, deposed as Warden of Joliet and Stateville prisons, today ssued a statement saying he would welcome an opportunity to submit my case to some court

where the rules of fustice prevail." "With that in mind it is my intention to lay my case before Attorney Clarence Darrow of Chicago in the hope of facing a fair, impartial, open, public hearing in my oase. I do not believe the

grand jury hearing was fair."
Nathan Leopold, slayer of Bobby Franks, and a witness to the slaying of Deputy Warden Peter Klein by seven escaping convicts on May 5 at Stateville prison, was called as a witness at the Coroner's inquest today into the death of

Nebraska Farmers Use Similar Method to Express Anger Toward Commissoner.

By the Associated Press.
SCOTTS BLUFF, Neb., May 28. -Dr. Hubert Work, Secretary of the Interior, and Dr. Elwood Mead, Commissioner of Reclamation, were hung in effigy here last night by a group of farmers and citizens who blame them for failure of the Government to supply the irrigated North Platte Valley with water from the Government project.

The two effigies were left dangling in front of the office of the Waters Users' Association, which is the central organization of the North Platte Valley farmers.

One of the effigies had but one arm with a sign, "Dr. Elwood Mead," attached to it. Dr. Mead has but one arm. The other effigy was marked "Dr. Work." This sign was found on that effigy:
"For breaking his word and depriving a project of water."

When the irrigiation project was started several years ago, the Government ordered a construction charge which was to be paid over a number of years at varying costs in addition to a charge per acre for

supplying water.
Later the construction charge was increased and many of the farmers failed to make payments. The Government refused to furnish water to delinquents until all past dues were paid or until notes were

This the farmers decline to do, claiming the Government should furnish the water until all irrigated lands are reclassified according to terms of the omnibus water bill. recently signed by President Cooldge. This bill makes provision for a downward readjustment of about \$23,000,000 on construction and other charges levied against 19 eclamation projects.

The farmers say that Secretary Work agreed to this delay.

This Is Action of Convention but Fundamentalists Condemn Education Board.

WASHINGTON, May 28 .- A reso ution providing for a six-months' ruce on controverted subjects beeen fundamentalists and modernhurch was adopted today by the

Fundamentalist members of the ble Union, an independent body, ast night adopted a resolution alling upon the convention and he Baptists of the country generally to remove modernists from mission field and church edu-

The resolution adopted by the undamentalists, assailed modernist teachers as "cuckoos" who had

"We are compelled," said the solution, "to call attention to the intolerable situation in our entire Northern Baptist convenion's educational program. With the rarest exceptions, by political manipulations to which even men of the world have seldom descended, modernists have been put into the presidencies of our universities colleges and schools of second grade. Modernist professors have been placed in chairs that were created with the money of fundaentalists. Modernist student pastors are practically, if not absolutely in charge of the spiritual training of our young people.

"Modernist professors head the religious departments of practicaland by the same political manipu ation, a cordon of modernist pas ors has been flung around prac schools, making a double defense against even the approach of noted fundamentalist men and peakers--much less the possibility of their admission into the schools and their being granted an audi-

nce in the same.
"To further acceptuate this inolerable result, we now discover that our Board of Education in the Northern Baptist convention is deiberately determined to end the entalist who cannot be brought and thereby complete the 'unitari-anizing' process with a view, doubtess, of doing eventually what the eaders of Congregationalism in ew England long since did, turn-ng over these churches to the arianism outright.

"In other words, this board of ducation seems willing to draw its support from an evangelical and Bible-believing and Bible-loving de-nomination, while engaged in the very processes of betraying that denomination's interests, and finally, after having bound it hand and foot with the fetters of unbelief, deliver it over to the people with shose hearts they are truly unitd."

NEW YORK CITY PHONE CO. WINS \$9,111,378 RATE RISE

ncrease Granted by State Com-Among 140 Schedules.

NEW YORK, May 28.—The State Public Service Commission has authorized the New York Telephone Co. to increase New York 111.378 additional revenue. ffices of the company it is said the ncrease will not he applied horizontally. There are 140 schedules governing New York City rates and the increase will be apportioned among them. The rates have increased 37 per cent in six years, while rates throughout the country have advanced 33 per cent in 10 years. These figures do not take into account the increase authorized yesterday.

There was division in the Public Service Commission. Three memhers signed the majority opinion granting the increase of \$9,111,378. Two members signed a minority opinion which would have authorized a \$15,000,000 increase. The majority held that the company was entitled to 7 per cent net reurn on a valuation of more than \$427,000,000. The minority contended the telephone company should make a net return of 8 per ent on a valuation of more than

BUSCH ROAD ON BRIDGE BILL FAILS

President of Railway Demands Assurance That Southern Approach to Municipal Span Be Built.

rs' Railway, so far chief objector o the proposal to exchange uses of Eads and Municipal bridges under terms set forth in an ordinance prepared by a Chamber of Commerce Terminals subcommittee, was made Wednesday and appar-

ently failed. Cotter said yesterday that he was invited into conference with Harry Scullin, chairman of the Terminals Committee, and Henry Miller, president of the Terminal Railroad. He immediately projected the discussion upon the southern approach to the municipal bridge, passed by voters in the bond issue

The southern approach would afford the Manufacturers' Railway and the Missouri Pacific a head-on connection with the municipal bridge. The suggested ordinance proposes a connection between the Terminal and the bridge, which, Cotter asserts, is designed to and would effectually block his road, a competitor of the Terminal, from

President Miller of the Terminal, Cotter recounted, apparently agreed to the principle that the southern approach should be built. Accordingly. Cotter said, he submitted the

following memorandum: "In the presence of Mr. Queeny John F. Queeny, president of the Monsanto Chemical Co.) and Mr. Scullin, we, the undersigned, Mr. Henry Miller, president of the Terminal Railroad Association, and Mr. William Cotter, president of the Manufacturers' Railway, agree that the southern approach' to the municipal bridge should be built at the earliest possible moment." He signed the memorandum, he

said, and handed it to Miller, who

President Miller said today the erminal had no objection to the uilding of the southern approach. lowever, he said, the Terminal elt that it could not join an of-ensive to have the southern approach built "at the earliest pos-sible moment." when it, itself, had designed another approach and, in its opinion, a better one.

"The southern approach, authorzed in the bond issue, connects up lines to the south with the Municipal Bridge," he said. "Our sugested approach does that and, in addition, eliminates the Poplar street tracks and its undesirable grade crossings. We merely feel hat we should not take the posi-ion of urging that two approaches

Another meeting between city officials and the subcommittee which drafted the ordinance was held yesterday at Hotel Jefferson and at its conclusion, a letter from Mayor Miller to Chairman Scullin of the

summer ommittee was given out. In it, the Mayor declared that, or the present, the city administraion could neither approve or disapprove the ordinance. It required nore information and the benefit f wider public discussion and crit-

He suggested that he could not et until the ordinance had been submitted to the large Terminals ommittee, composed of represent ives of the cities of St. Louis and East St. Louis, together with civic podies and shippers within them, and the railroads. Accordingly. hairman Scullin called a meeting of this committee for Tuesday at 2 p. m. in the Mayor's office. The eeting, as all others at which the rdinance has been discussed, will

e executive. The Mayor declared the terminals problem to be one of the most important, "if not the most im-portant," confronting his adminisration, and urged speed in bringing he matter to the stage of public discussion. He added that, if the present plan should prove not to be satisfactory, that an alternative

The proposal to exchange uses of ads and Municipal Bridges, is the eynote of a comprehensive plan or the reorganization and simpliication of St. Louis district rall-oad terminals designed to shorten delays on incoming and outgoing freight which surely penalize both

BOBBED HAIR BOBS UP ON WOMAN'S BOARD

First Shorn Candidates for Federation Honors Discussed by Delegate .

ATLANTIC CITY, N. J., May 28. -Faced with the nomination of two "bobbed" board members who. if successful, will be the first of that cut of hair on the board, the General Federation of Women's Clubs, with membership rigorously unbobbed, is wondering if the pow-

ers that be will "stand for it."

Bobbed hair will surmount the brains of the club women of the future, whose short skirts will hasten her forward steps, in the opin-ion of various leaders questioned.

"An elderly woman who would bob her hair betrays a frivolity incompatible with serious accom-plishments," an old-timer said behind closed doors.

"A leader of women must be willing to sacrifice minor personal whims for the sake of her status,"

The two bobbed nominees are Mrs. H. G. Reynolds of Paducah, Ky., who is thus far unopposed for the office of Federation treasurer, and Mrs. Oakley W. Cooke of Cald-well. N. J., former state chairman of music, seeking the post of national music hairman. Mrs. Cooke has bobbed her hair since her candidacy was first discussed.

Most favorable opinions were: Mrs. Gilbert Davis of Windso Vt., chairman of legislation: "The crusading spirit, held within bounds, is an essential of the clubwoman. I don't think it makes any difference what she does

"I believe in 'Be Yourself' as the motto of every clubwoman," said Mrs. John T. Mason of Aurora, Ill. "I believe we'll all be bobbed Friend, Louisiana State Federa the 'light streak' sometimes d plored in clubwomen, I am a great

SENTENCES OF FOUR

FRIDAY EVENING, MAY 28, 1926_

One of Penalties Affirmed Is for Manslaughter Against St. Louisan.

Conviction of Charles Scheufler of St. Louis on a charge of man, slaughter in connection with an accident that resulted in the death of a passenger in Scheufler's auto truck, was affirmed today. Scheufler appealed from a sentence of three months in jail and a fine of

n other parts of the State on harges of manslaughter, feloniousv leaving the scene of an accident and operating a motor vehicle while

street car at Washington avenue and Broadway, St. Louis, on Aug. 17, 1924. Several men in the truck were thrown to the street and one of them, Christ Verdon, suffered fatal injuries. Scheufler contended his truck was struck by the street. ear, but state witnesses said the ruck hit the street car.

An opinion by Judge White affirmed the conviction of C. E. Bledsoe of Dunklin County on a charge of drunken driving. Bledsoe was sentenced to serve 30 days in jail and was fined \$100 in the lower court

The conviction of Philips Dam-co, 17 years old, of Kansas City, for manslaughter in the killing of an aged man with an automobile on Jan. 2, 1925, was affirmed. Dam-ico, speeding, lost control of his car safety zone, killing Edward Lane. Young Damico left the scene, but pleaded at his trial that he did not know he had hit anyone. Con-ricted in juvenile court, he was senenced to the Missouri Reformatory

That it is parents who hold children back has been a belief since the time of Plato. He thought children should be taken away from their parents and raised by the state, Elizabeth Benson, New York school girl, who is ready for college at 12 years, probably shows what most children could do if it were not for parents. Elizabeth's parents are divorced. This is not the same opportunity enjoyed by Herbert Hoover, who had no parents after early childhood and was farmed out among his uncles. Herbert's chance was one in ten thousand. However, Elizabeth's case shows what it shows. We think divorce works a hardship upon children, but it gave Elizabeth her chance. She took it, and the children with two parents suppressing them every step of the way are nowhere. Believe it or not, just as you like Certainly if it ever goes to a plebiscite, among children we shall get the thing straight.

Two tiger kittens have just been born at the local zdo, which hopes we can raise them. We likely can. We have made a great success of heimgemacht, and if it is any harder to keep a young tiger within bounds than it is to keep helmgemacht corked, we are in for another big surprise.

Excavators in the north end of town have found the bones of a human being. Probably someone waiting for a Vandeventer car.

The price of fame in New York is pretty high, wouldn't you say? If you don't go to the parties you miss the prominent people, and so do not have anything done to oush you along. Somebody gives a drinking bout at which a chorus girl is to swim in the punch, and you go upon peril of being returned to Dayton. Some of the insidious reporters from the tabs, which live upon light filler of this sort, horn into the party and tell all about it, in the paper. then you are a witness. They ask you if you saw anything improper at the party. You say you did not. They ask if you drank anything. Only soda water, you say. You feel that you are paying a pretty high price for fame, and everybody else knows you are. George Ade decided that it was much to pay and went back to Indiana

He is a farmer, and all he writes is the dairy payroll checks. If he wants to go down to the old swimming hole and dive with the boys, he can do so. He likes that better than standing around heavily while some poor blubbering naked girl out of one of the folly choruses paddles around in a tub of wine wishing she were back in Kalamazoo and had never quit the Y. W. C. A. They must be pressed for something to amuse the jaded. It always happens, The Romans got so jaded that some of the men went into the arena and fought the gladiators while the girls howled from the sidelines and besought Harry to kill him or Herman to brace up. What a pleasing contrast to all that is Thoreau at Walden Pond, and how much better off most of us are where we are! We have the funda-mentalists to fight, and the lunch hour is the Babbitts' own; but we don't have to

Bellboys are coming back, and we are lad of it. The idea that they can be cuffed about and in extreme instances shot at is in our opinion dangerous. Everybody knows that a great many men are re-strained from killing caddies outright by nothing more than the indisposition to regard ordinary irritation as a sufficient reason for committing murder. There are too many irritations. The bellboy is likely the keystone in this arch. If people can get away with killing him because he doesn't move fast enough, or is merely dumb about something, it is only a question of time until there will not be a caddie left and boys in most provocative occupations will be running for their lives. It is too dangerous a precedent, and society cannot afford it. We need boys, and we will take them as is.

DAVIDSON OBJECTS TO OPPONENTS' WAGERS

Gov. Ferguson and Attorney-General Moody Each Agree to Resign if Other Wins.

Special to the Post-Dispatch.

AUSTIN, Tex.—Zest has been added to the campaign in Texas by the challenge of Gov. Miriam A. Ferguson to Attorney-General Dan Moody that if she does not get 25,000 more votes in the Democratic primary on July 24 than are cast for Moody, she will immediately resign her office as Governor, provided Moody will resign the office of Attorney-General if he does not lead her by as much as one vote in that primary.

Within a few hours Moody announced that he accepted its terms. He said that if the people of Texas did not overwhelmingly repudiate "Ferguson'sm" in the first primary, July 24, he had no desire longer to represent such a constituency as Attorney-General and would immediately quit office.

Former Attorney-General Lynch Davidson, who also is making a vigorous campaign for Governor, then charged that both Gov. Ferguson and Moody, by entering into this agreement, are making a gunble out of the high office to which

they aspire.

Should Mrs. Ferguson win by 25,000 votes in the first primary and thus bring about the resignation of Moody, she would have the appointment of his-successor as Attorney-General. It also is apparent that the combined votes for Moody and Davidson in the first primary might far exceed the total votes teceived by Gov. Ferguson, but that in the second primary Moody would probably win by a large majority.

Bobby Staats of Omaha, Neb., Couldn't Find His Way, but Wildle Knew the Road.

Special to the Post-Dispatch.

OMAHA, Neb.—Balmy spring weather invited Bobby Staats, 4 years old, out into the open air and Bobby accepted the invitation. No one noticed his departure except Wildie, a German police dog, and Wildie went along. When darkness came, Mr. and Mrs. Charles Staats, Bobby's parents, became frantic at their boy's failure to return. Neighbørs foined the search for the boy. When they had almost given up hope, Mrs. Staats heard a familiar bark on the front porch and rushed to the door to find Bobby and Wildie.

"It was dark and I didn't know where I was," sald Bobby, "but

"It was dark and I didn't know where I was," said Bobby, "but I just followed Wildie" and he brought me home. He went so fast sometimes I couldn't keep up with him, but he'd stop and wait for me."

The best milk for you

When you buy a can of milk you want the best. You want purity and richness-safety and food value. You want to know that you are going to get them.

That is why millions of women like you ask for Carnation Milk-by name. They feel that this milk, with its high reputation, with its standing as the world's largest-selling brand, must be the kind of milk they want

These women are right. Carnation is exceptional milk. It comes from selected herds, constantly watched by Carnation's own force of field supervisors. It is given exceptional care in the Carnation condensery. And when you buy it at your grocer's you know what you are getting-the best.

There is no finer milk for cooking than this full-cream milk, evaporated to double richness and "homogenized" to give every drop an equal share of the double helping of cream. There is no more satisfying milk for creaming coffee. No safer and more nourishing milk for babies. No more economical milk, either-for Carnation goes farther in cooking and cuts two-thirds off your cream bills.

Ask your grocer for Carnation. He will recognize you as a careful, particular, thrifty buyer.

See How Much Better Carnation Milk is for Cooking!

Dishes made with Carnation Milk are richer, creamier, tastier-more satisfying in texture and bodyas domestic science authorities have often noted. This splendid recipe will show you. The Carnation Cook Book, "My Hundred Favorite Recipes," by Mrs. Mary

Blake, contains many more. Write for it.

No-Egg Mayonnaise 1/2 tsp. salt, 2 tbsp. Carnation Milk, 1/2 cup salad oil, 1 tbsp. lemon juice or vinegar, 18 tsp. paprika.

Put salt and paprika in a bowl with Carnation Milk and mix well. Add oil, a teaspoonful at a time, and beat all the time. Add lemon juice or vinegar. This makes two-thirds cup salad dressing.

TEARN for yourself how Wilson's Milk is different. Try it for every milk and cream use. You'll prefer Wilson's ever after. Wilson's is nothing but rich, fresh, dairy milk with the surplus water removed—and it comes to you in convenient cans instead of bottles.

A FULL QUART OF RICHNESS

in Each Large Wilson's Can

Because it is double-rich, you may dilute a large can of Wilson's Milk with an equal amount of water and you will have a full quart of whole milk that is richer than the legal standard. Diluted in this proportion Wilson's serves every milk need -economically. And for all cream needs you use the double-rich Wilson's Milk just as it comes from the can-and save more than half the cost of cream.

Try This New Wilson's Recipe FRUIT SALAD DRESSING

½ cup Wilson's Milk-2 eggs-1 tablespoon butter -1 tablespoon sugar-2 tablespoons lemon juice

Beat together the eggs, butter, sugar and lemon juice or vinegar. Add a pinch of salt. Cook over boiling water, stirring constantly until thickened. When thick and smooth remove from the fire and add the Wilson's Milk. Serve with fruit salad.

> Favorite Dishes. Toasted Cheese Sandwiches. HILE there is nothing truly novel in these sandwiches, there is a trick in making them attractive. If a hearty cheon or supper dish is desired hen the sandwich is made in the 'orm of an "open" one, the cheese being melted and served on one sandwich, however, that appears simply as one dish in a meal, prepare it like this: Cut thin slices of white bread. Remove the crusts and toast only on one side. Place

thin layers of American cheese on the untoasted side between two lices of freshly prepared toast. Cut in triangles and place in the oven until well heated, but remove before the cheese melts. Mixed Sea Food.

The individual housekeeper may xercise considerable originality in oreparing this dish. Have ready little ramekins or other baking dishes and when the mixture is prethirds full each dish about two-thirds full and bake separately. For the mixed sea food, this should be selected according to taste. One combination is that of scallops, bits of lobster and bits of any leftver cooked fish. For this mixture delicate sauce is prepared as for white sauce, but season with this mixture. Cream sauce and plain fish sauce are prepared along similar lines. The whole trick consists in selecting sea food flavors that go well together and to concoct a delicate dish with a

Buckeye Malt Wins the Quality Sweepstakes!

Every malt in the country was entered. From Boston to San Diego, entries came to compete for the national malt syrup sweepstakes. The victor was to be awarded the malt business of one of the largest chain stores in the country. Buckeye won!

Quality was the basis of the selection. Popular preference weighed heavily. The integrity and reputation of the company behind each brand were thoroughly investigated by a purchasing agent acknowledged as the most careful buyer in the country. Buckeye won!

Many months of consideration were given to the problem—laboratory tests to determine relative quality values were conducted—names of malt syrups were concealed from the chemists to insure fair play to all—there was an absolute insistence throughout that merit alone should determine the verdict. Buckeye won!

When a chain store organization whose phenomenal success has been founded on its ability to sense the quality needs of the public, selects Buckeye Malt as the exclusive brand for its more than 3,000 stores—you cannot go wrong if you follow its recommendation. Be guided by this conclusive test. Buy Buckeye and know the thrill of real success in using malt. Sold everywhere.

By actual experiment it was found that the 2½-pound can of Buckeye was much to be preferred over 3-pound cans of ordinary malts.

Suzanne and Helen Likely to Meet in Final

Placed at Opposite Ends of Draw in International Tourney.

By the Associated Press.

PARIS, May 28 .- The draw for the women's singles in the international hard-court tournament beginning here on June 2, places Suzanne Lenglen at the head of the top half and Miss Helen Wills at the bottom of the second half. Thus there is a good prospect of another meeting between the French and American champions.

Mile. Lenglen first plays Mme. Peterie of Hungary, while Miss Wills meets Mme. Golding of

The top half of 16 contains two Americans, Mrs. Marion Zinderstein Jessup meeting Mme. le Besnerals, and Miss Elizabeth Ryan meeting Mme. Danet. This indi-cates the possibility of Mile. Lengtogether as semifinalists.

The 16 names forming the bottom half include two Americans, Miss Wills and Miss Browne, Mile. Contoslavos and Vidi Vlasto, two strong French players, appear in the bottom half and are likely to meet in the second round. Miss Wills will probably have to beat Mrs. L. A. Godfree or Miss Browne to arrive at the semifinals.

drive cars well and want to care

THOSE women who drive cars realize that it ruins a motor to run without oil. Now, thousands of the more careful ones also realize that it is quite as necessary to have the right oil.

for them equally well

Every mile you drive, your motor is menaced by heat and friction. Heat great enough to sear and scorch metal! Friction fierce enough to grind down one metal part against another. The only thing that prevents these disasters is a sheer film of oil, a film thinner than this sheet of paper.

The famous "film of protection"

For years Veedol technologists experimented with oils and oil films. They made thousands of laboratory tests, hundreds of road tests. Finally they achieved Veedol, the oil you can depend on—the oil that gives the famous "film of protection."

This Veedol film, thin as tissue, smooth as silk, tough as steel, withstands the heat and friction in your motor. It protects every part of your motor, every mile of the way.

Drive up to the orange and black Veedol sign. There you will receive prompt, courteous service. Your dealer will gladly drain and refill your crankcase with Veedol. Then the "film of protection" will care for your motor. But be sure to ask for Veedol by name.

Dollars (or Purchasing Power)

For the convenience of national advertisers, the St. Louis Post Dispatch has published a P+D+C Manual which describes the fundamental principles of measuring a market from the standpoint of newspaper advertising by identically the same accepted

standards that have long been used in measuring a market from the standpoint of seiling.

The Fost-Dispatch has also just completed a Book of Information About St. Louis and "The BILLION-AREA"—the Greater St. Louis Market, that will be of inestimable value to any advertiser.

A Billion Dollar Business Increase in "The Billionarea"

TN 1925, the gross volume of business transactions in "The BILLIONAREA"-Greater St. Louis-showed a Billion ▲ Dollar Increase over 1924.

That record both summarizes and epitomizes the growth and prosperity of this rich market.

In the past year, Greater St. Louis has established one new business record after another which can only be described on a Billion Dollar basis.

The purchasing power of "THE BILLIONAREA" has increased to the point where it is now over a billion dollars annually, which is greater per family than any other market in America, with one exception.

The volume of annual sales has increased to over a Billion Dollars-\$1,427,044,000 for 1925.

A Billion Dollar construction program has been actively

started and is now at its height, contributing new millions in wages to the prosperity and purchasing power of this

During the past two years nearly 200 national industries have located in Greater St. Louis, investing huge sums in new plants and equipment and providing employment and wages for 25,000 additional workers.

"The BILLIONAREA", therefore, is more than a market name, it is a market condition which justifies the special attention of national manufacturers and advertisers.

As a field for profitable advertising and selling, it has few, if any, equals in America today.

The dominant newspaper, having by far the largest circulation in the Greater St. Louis Market, and carrying by far the greatest volume of advertising, is the St. Louis Post-Dispatch.

ST. LOUIS

POST-DISPATCH

The highest ranking P+D+C newspaper of "The BILLIONAREA"-the Greater St. Louis Market

Because the St. Louis Post-Dispatch has the greatest circulation in this rich area, it offers national advertisers a P+D+C value almost without parallel in America. It reaches more People with more Dollars with a greater Coverage of "The Billionarea" than any other newspaper.

Its coverage is so complete that this one newspaper alone taps the unusual

buying power of practically every home in the Greater St. Louis Market.

The fact that both local and national advertisers recognize the Post-Dispatch as the most powerful selling force in the Greater St. Louis Market is proved by its volume of advertising-almost equal to that of all other St. Louis newspapers combined.

Department of Commerce show that the trade of the United States with Cuba last year was greater than it was with France. Central and South America on the eastern and western sides offer wonderful future markets for the products of the Middle West.

"The cities of the Great Lakes are interested in the products of these, our Southern neighbors, such as sisal, lumber, coffee, sugar, ni-trates, sulphur, salt and many other of the necessities of life. Certainly it is in the interest, at least of Lake Superior, Lake Michigan and Lake Huron, to have a great waterway over a direct route across the United States to these rapidly developing markets,

Enumerates Benefits. "Then, too, such a waterway would make it possible for the great and growing factories in the lake cities to utilize the benefits of the Panama Canal and thereby reach the east and west coast of North and South America and the Orient. Our country would be immeasurably benefited by the results of the cheap transportation which would follow such an improvement and yet, such a waterway can no be developed without adequate diversion from Lake Michigan to connect the Great Lakes with th great Mississippi waterway system

achievement for the farmers, mer chants and manufacturers of the lake region if they could realize th benefits of a cheap waterway suc as I have described, extending from the Great Lakes to the gulf: also a waterway such as that of which they have dreamed extending down the St. Lawrence and across to Eurepe? Both of these can be had when the selfish interests of the power combine have been eliminat ed and the farmers, merchants and manufacturers of the lake regions, together with those of the great Mississippi Valley, come to realiz that their interests are not in conflict, but are mutual and can be harmonized to the benefit of both

without injury to either. "All of this can be accomplished when the people of the Great Lakes region discover that their fears have been excited and their suspicions aroused by the carefully de signed literature and propaganda of a gigantic power combine, which seeks to serve its own interest in-

Treaty With Canada.

"I regret to be clusion that we have too Americans who are more solicitous about Canadian power than they are in providing facilities for cheap ransportation for the farmer, mer chant and manufacturer in our own

"In the face of the facts, why should farmers of Ohio, Indiana. Michigan and Wisconsin permit the power combine to stir up quarrel between them and brothers in Illinois, Iowa, Missouri and other valley states? It is apparent, and has been demonstrated. that lake levels can be restored without injury to navigation, and that there is abundant water with which to develop a great waterway rom the lakes south to the gulf nd enother great waterway from he lakes northeast to the sea.

Our treaty with Canada provides that the use of water for navigation purposes shall come before he use of water for generating power; and there can be no queson but what two such great wa terways would benefit not only the Great Lakes region, but the whole

country as well. "Rail rates are high and cannot be reduced. The ony practical so-lution for the farmers' problem. ither in the Great Lakes region or the Mississippi Valley, is cheap transportation which can be afforded by the waterways, 'It is most distressing now that
